What is CHAMPVA?

CHAMPVA is a health benefits program in which the Department of Veterans Affairs (VA) shares the cost of certain health care services and supplies with eligible beneficiaries (see Eligibility Fact Sheet 01-03 for criteria for CHAMPVA coverage). CHAMPVA is managed by the VA’s Health Administration Center (HAC) in Denver, Colorado. We process CHAMPVA applications, determine eligibility, authorize benefits, and process medical claims.

What is DME?

(DME) Durable Medical Equipment is equipment that is medically necessary and appropriate medical care, ordered by a physician for the specific use of the beneficiary, can withstand repeated use, is primarily and customarily to serve a medical purpose and generally is not useful to an individual in the absence of an illness or injury.

Why does CHAMPVA require preauthorization for DME?

Preauthorization is required to ensure that the item is required for a CHAMPVA-covered medical condition and is obtained at a cost savings to both the beneficiary and the government.

How does CHAMPVA save the beneficiary and the government money through preauthorization?

Preauthorization allows us to purchase the DME through the VA at a discounted rate. There is no cost share if the DME is preauthorized and obtained through a VA source. Requests for preauthorization must include the doctor’s DME order or certificate of medical necessity.

What if the patient needs the equipment immediately and the VA Medical Center source for the DME may take several weeks?

In the case of an emergency, immediate rental will be authorized from a local supply center until the equipment can be provided through VA sources. In urgent need situations (such as being discharged from the hospital to the home and requiring a hospital bed), preauthorization may be requested by phone. If purchase of the equipment is required, rental can be approved while the purchase of the equipment is arranged through the VA. A certificate of medical necessity is still required.

What kinds of items have to be preauthorized?

Any item that costs more than $2000 to buy or when the total rental price is $2000 or more. Typically these include wheelchairs, hospital beds, and specialized lifts.

What documents are required for preauthorization?
Requests for preauthorization must include the doctor’s DME order or certificate of medical necessity. This information can be submitted in the form of a letter or by using a Medicare Certificate of Medical Necessity form. In either case, the following information must be included:

- the name, address, and tax identification number of the provider,
- the required equipment (the make and model number, cost and specifications for any customization),
- diagnosis,
- the medical necessity, and
- the anticipated duration that the item is needed.

**Where do we send the documents?**

VA Health Administration Center  
CHAMPVA  
ATTN: Preauthorization  
PO Box 469063  
Denver, CO 80246-9063

**Can we obtain preauthorization over the phone?**

In urgent need situations (such as being discharged from the hospital to the home and requiring a hospital bed), preauthorization may be requested by phone. If purchase of the equipment is required, rental can be approved while the purchase of the equipment is arranged through the VA. A certificate of medical necessity is still required.  
Call 1-800-733-8387 or FAX at 303-331-7807 for preauthorization.

**What types of equipment are NOT covered by the CHAMPVA program?**

- Exercise equipment
- Hearing aids
- Hot tubs
- Household and recliner chairs
- Luxury or deluxe equipment (CHAMPVA covers only the cost of basic equipment that meets your medical needs)
- Maintenance agreements/contracts
- Repair and adjustment costs on rented/leased equipment (those costs should be included in the rental/lease agreements)
- Spas
• Swimming pools
• Vehicle lifts that are non-detachable and/or manufactured for a specific vehicle that cannot be removed from one vehicle and used on another
• Whirlpools

**Are DME repair costs covered?**

When it is most economical to repair the DME and the damage is not a result of neglect or abuse of the equipment, repairs are covered. If the repairs are extensive and costly, it may be more economical for the government to replace the DME rather than repair it.

**Are the cost maintenance agreements covered?**

No. However, routine and periodic servicing (such as testing, cleaning, regulating, and checking), which is required by the manufacturer to be performed by an authorized technician, is covered.

**Will CHAMPVA purchase or lease the item?**

This depends on what the doctor has indicated in the DME order regarding the expected period of need. It also depends on what is most cost effective for the government and the beneficiary.

**Does CHAMPVA have an allowable amount for DME?**

Yes. This varies, based on the VA cost for the item.

**What will the patient have to pay if the item is obtained locally?**

Assuming the patient has met their annual deductible ($50), they pay 25% of the allowable amount.

**Does the DME supplier have to accept the allowable amount?**

Yes, under 38 CFR section 17.272(b) (3) and (4), providers must accept the CHAMPVA allowable rate and cannot balance bill the beneficiary.

**How do I get more information?**
